FROM : DAD/S&D

SUBJECT: 25X1A

[ ] statement of the general theme of the symposium in paragraph 3 is exactly consistent with the feeling that I have about maintenance problems in general. I think in our particular case that we should try to eliminate the necessity for maintenance and, of course, we are trying to do this. You might want to pass [ ] memo on to 25X1A the Intercept Operations people for information to them.

I have asked [ ] to see that a copy goes to everyone in S&D.
